PERSONAL PROFILE

I graduated from Leeds University this summer with a first in graphic design and communication. I believe in a concept driven design, with an interest in typography, art direction and illustration for print and moving image.

In between my second and third year of university I completed a year in industry, working the full 12 months for design agency Root. I have experience in generating and executing concepts and solutions to a high standard, meeting client needs, hitting deadlines, working as part of a tight-knit team and individually, working on big and small brands, artworking, talking to printers, shoot production and office admin.

EXPERIENCE

ROOT
thisisroot.co.uk
Intern / Junior Designer
2009-2010 / 2011 - Current

GYRO:HSR
gyro.com
